DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus water with another sheet of blotting-paper; then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain;) place it in the press, and, in ten or fifteen seconds, a perfect copy will be secured.

The leaves **WILL DRY AS SMOOTH AS SILK**, if the book is placed in the Press after Copying.

~~As~~ Place oil-sheets between copies just made, to prevent blending or setting-off.

Another Process, when many Letters are to be Copied.

Procure a tin or iron box, with lid, to hold 20 blotting-pads.—(Boxes furnished, if desired.)

Dip half the lot of blotters in water; let them drain, off a few moments; then place a dry blotter between each wet one; give them a few minutes' squeeze in Press and they will remain wet for three days; then take an oil-sheet; place it to the left; then lay a wet blotter: then turn leaf of Copying over on blotter; then lay your letter on; then another oil-sheet, and so on; and you can copy all your letters at one time; thereby saving time. With a little care and experience, at first, as to wetting, you will be so well pleased, as never to resume the old way.

HILL'S BLOTTER BATHS are the best adapted for use in this Process.

To copy **TYPE-WRITTEN LETTERS**, the leaves require **MORE MOISTURE** than they do to Copy Letters written with **PEN AND INK**.

The following resolution has been passed by the Executive Council:

Resolved that the Executive Council will approve of a sub-lease by the Waiakea Mill Company to Alexander Young including about 1000 acres within 200 feet of the Volcano road and including a strip of 400 feet wide connecting the said main strip with the Volcano road, with the privilege of cutting forest growth and underbrush for purposes of cultivation, except upon such 400 feet strip, and of cutting roads through such 200 feet strip.

The following questions were submitted to the Executive Council by the Agent of Public Lands:

1. Have the Commissioners of Public Lands authority to grant the privilege of clearing Forest Land, either as a modification of an existing lease, or as a special and distinct "Land License"?

In the opinion of the Executive Council, the Government has authority to grant the privilege of clearing Forest Land as a modification of an existing lease, for purposes of cultivation or other improvement; but that such privilege should not be granted without the approval of the Executive Council.

2. Do the provisions of Chapter 83 of Session Laws 1892, apply rigidly and without exception to all main and branch roads, which may be required in the Forest Lands laid out for settlement purposes?

In the opinion of the Executive Council, the provision of

2.

of Chapter 88 of the Laws of 1892 does not apply to the branch
road connecting Homestead lease-holds, Right of Purchase lease-
holds and Cash Free-holds with the main public road.

EXECUTIVE CHAMBER,

Honolulu, H. I. September 28, 1895.

Mr. J. F. Brown,

Agent of Public Lands,

Honolulu,

Sir:

I am directed by the Attorney General to inform you that in a meeting of the Cabinet held this day he submitted the questions involved in your communication to him under date of September 10, to which the following answers are given:

Question. "1st. Under date of September 10th 1894, lease known as 116 Series 3 of Olan leases was issued to J. H. McIntosh for the term of 30 years, under the usual conditions of cultivation and improvement made in Olan leases.

"Under date of March 26th 1895 permission to assign said lease to Jennie S. Martin was given by the Commissioners but such assignment has never been made.

"October 12th 1895 V. M. Fulcher addressed the Commissioners of Public Lands stating that he was the holder of Lease 116 Series B, and that the same had been taken by him under the assumed name of T. H. McIntosh, on account of certain difficulties in the United States which had at date of writing passed away, asking by what method the matter might be satisfied.

2.

"The question presented therefore is what steps in the opinion of the Attorney General may be taken to rectify this matter and to correct the records?"

Answer. The Patent and Agreement in the above case shall be issued to "V. M. Fulcher alias E. E. McIntosh."

Question. "2nd. Under Section 76 (r 57) of the Land Act 1895, Olas persons holding less than 200 acres of land and who have improved not less than 20 acres of their landholdings have the privilege of purchasing an additional area provided the aggregate does not exceed 200 acres.

Does this privilege of purchasing additional areas apply to an Assignee of Olas Lease, the assignment being made subsequent to date of Land Act, 1895, and with approval of Commissioners of Public Lands?"

Answer. - In the opinion of the Cabinet the provisions of Section 76 of the Land Act relating to persons holding lands under lease from Crown Commissioners apply to the Assignee of the leased land in cases where the assignment has been made with the approval of the Commissioners of Crown Lands.

Question. "3rd. A party holding lease of Olas land, having cultivated over 20 acres of his landholdings desires to fill up his area to 200 acres, a considerable portion of the 200 acres being nearly bare sandstone not fit for cultivation. I assume that he must consolidate in his purchase the whole of

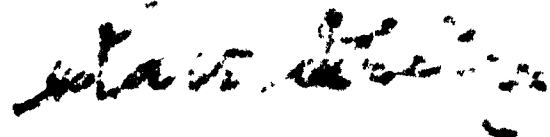

3.

His leasehold good and bad, before he can take up additional land to aggregate 200 acres - if other lands - that he can not select the good portion of his lease for purchase and make up the additional area out of other good land.

"Is this assumption correct?"

Answer. A lessee of Olm land having cultivated over 20 acres and desiring to fill up his area of 200 acres must include in that area all the land described in his original lease.

Very respectfully,

Acting Clerk Executive Council.

Executive Chamber,

Honolulu, October 19, 1896.

EXECUTIVE CHAMBER,

Honolulu, H. I., November 19, 1898.

Mr. I. Wisniewski,

Honolulu,

Dear Sir:

The Executive is of the opinion that it cannot safely depart from its policy in regard to dealing with public lands and feels disposed against the selling of 500 acre tracts to one individual. It feels, however, that this need not be an obstacle to your enterprise as there is considerable private land available in large sections. It is now ready to let you have 200 acres which offer a field for considerable capital, and in case you care for the 200 acre tract it would be let to you on conditions set forth in Exhibit "A" herewith enclosed.

Very respectfully,

J.F. Brown, Esq.,

Agent of Public Lands,

Sir:-

I am instructed to inform you that in the matter of the petition of Mrs Kanels Kase for a Patent to a piece of land situated at Wokani, Waikiki, Island of Oahu, it is the opinion of the Executive Council that the conditions referred to in Section 27 of the Land Act for obtaining a patent without resort to an auction sale, do not exist in the circumstances of the applicant's possession of the premises in question. It is not a matter of compromise, she having no title or claim of title. It is not a matter of perfecting the title to private land, she having no shadow of title; and there is no equity in the case. Therefore the Executive Council do not see how a patent can be furnished her without an auction sale, except under the provisions of Part six or seven of the Land Act, which they would be disposed to do if she can perform the conditions under those parts of the Land Act.

Very truly yours,

Secretary Executive Council.

W.R. Castle, Esq.,

Honolulu, H.I.,

Sir:-

I acknowledge receipt of your letter of January 21st. and in answer to the proposition contained therein, have to say, that before presenting it to the Executive Council, I referred the matter to the Commissioners of Public Lands, and have this day received a communication from that body, which I submitted to the Executive Council.

We are of the opinion that the proposition to put the property up at sale with an unexpired lease remaining upon the land, even reduced to the period of two years, might be severely criticised. The recommendation of the Commissioners of Public Lands is that the upset price be fixed at \$3,000. The Executive Council, however, are of the opinion that the land should not be offered for sale at public auction, unless the assignment of the lease now held by Mrs. Mary Castle be surrendered, leaving the land free from any incumbrance. Upon this being done, the Executive Council would recommend that the land be offered at public

In the matter of the application for the issuing out of 100 acre lots in the North Hill District above Government lots situated on the lands of Waikanae, Nelson. A motion was made and carried that the recommendation of the Commissioners of Public Lands after striking out the clause "Patent grant to issue whenever the purchase price shall have been fully paid, 50 per cent of land under cultivation and on conditions substantially approved by the Council" be approved, but with the understanding that the reason for granting these applications for 100 acre lots is that the applicants being pioneers for the cultivation of coffee in that location it is desired to make them this offer, but with the understanding that this is a precedent for others.
